Subject: Re: Reception

I am using the fm station all the time. Same thing. It comes and goes, wish it would go for good.

Unfortunately if you listening to the am nighttime interference is a way of life for us. I live at garden plain and have trouble as well. Might try the fm side with an antenna. Thanks for listening.

Greg Steckline.

> I enjoy your station at night but many times I find the reception fuzzy sounding or like 3 or 4 stations are on at once. At times the religious station, BOTT, is on your frequency loud and clear. I live in Goddard. Seems close enough this shouldn't happen. Very frustrating. Any solution? Thanks Jean Corvin
